All information about the creation of your mail template

You will receive a template optimized for mobile views, adapted to your corporate design, provided with your data and links. The responsive, extensively tested template optimized for the most important mail clients is technically up to date and will be regularly updated by us. Due to the modular structure (all elements can be shown or hidden), the template can be flexibly adapted to your respective wishes, so that a wide variety of variants are possible from a few lines to a product catalog.

How to get your individual mail template in 4 steps!

01. Buy email template
You choose one of the packages offered (Basic, Premium or Enterprise/Agency) and book it.

02. Fill out form
Until our Theme Generator goes live, after purchase you will receive the link to the form in which you enter your email specifications.

03. Check preview
Within the agreed period, you will receive a preview of the finished template for review.

04. Receive email template
After acceptance of the template you will receive the finished template to import into your mail system.
